- Aluminum two piece tube
- Combination dust brush upholstery tool
- Crevice tool

Ideal Applications Include:

- Offices
- Schools
- Hotels/Motels
- Healthcare Centers
- Retail Outlets
- Restaurants

The GD 930 canister vacuum is quite simply our biggest, most powerful and best canister vacuum. It features our largest dust bag (4 gallons) so that you can vacuum longer without having to stop and change bags. Both standard and high filtration bags are offered.

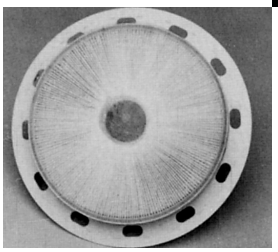
The H.E.P.A. GD 930 models feature an oversized true DOP MIL-STD-282 H.E.P.A. filter mounted before the motor. The huge surface area results in less restricted air flow to maximize vacuum performance no matter what type of material is being vacuumed. With 2,880 square inches of filter media, the filter can be used longer before it needs to be replaced.

Equipped with a 1,000 hour, 1.25 hp 1,000 watt motor the GD 930 is designed to deliver high performance day in and day out in harsh industrial and commercial; environments. The GD 930 has more shear power in terms of water lift and air flow than any Euroclean canister vacuum.

The GD 930 is easy to use as well. A low center of gravity and three point stance with two fixed rear wheels provides exceptional tracking. The round steel body is designed to take years of abuse on the job site. The lightweight aluminum wand is tough yet easier to use for extended periods overhead with less fatigue. The 6 foot hose and 50 foot power cord provides a huge cleaning radius.

Euroclean

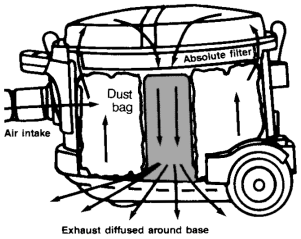
Euroclean
GD 930 H.E.P.A.
Canister Vacuums



The GD 930 H.E.P.A. model features absolute filter that removes 99.97% of all particles of 0.3 micron size or larger.

Standard tools include a combination brush/nozzle, 6 foot suction hose, dual mode floor tool, two piece wand, crevice tool.

Three rubberized wheels provide quiet and exceptional tracking over hard and soft floors.



4 gallon (15 L) dust collection bag wraps around motor assembly to cut down noise. Motor has thermal overload protection

Dual mode floor tool suitable for all surfaces

Foot operated on/off switch

Injection molded cover with integral carrying handle for portability

Durable chrome plated steel tank has wraparound vinyl bumper to protect walls and furniture

Built for easy handling, high capacity and long life.

Euroclean products are necessary cleaning equipment used for every-day commercial cleaning applications.

You can get expert service and maintenance for your products by factory-trained personnel around the world, as well as fast parts delivery.

Maintain peak performance with Nilfisk Genuine OEM Parts.
